Mit freundlicher Unterstützung der Lechlerstiftung

The Emergency tin

Your complementary help in emergencies

In an emergency situation, it is often difficult for rescuers to get the necessary information and important documents. From now on, the emergency tin is the solution, placed in your refrigerator.

This tin contains important information about your loved ones, important medications and illnesses. Therefore, please fill in the emergency information sheet carefully and keep it up to date.

Ask your relatives, friends, neighbors or other persons you trust to help you fill out the sheet. At the end of the page, two addresses are listed that can also be contacted to help you fill out the emergency information sheet.

The emergency tin is stored in your refrigerator, the attached stickers should be placed on the outside of your refrigerator door and on the inside of your front door in a visible area. This will give the tins a fixed location, so they can be easily found by rescuers in any household. (Without losing valuable time, the emergency-relevant information are available).

Please feel free to contact

Gerontopsychiatrische Beratungsstelle GerBera
(Gerontopsychiatric consultation center GerBera)
Tel: 0711 520 460-80 / 82 / 84 / 85

Bürgerservice Leben im Alter
(Citizens service Living in old age) in
State capital Stuttgart
Tel: 0711 216 552-96 / 98 / 93

The emergency tins are available at all pharmacies in Bad Cannstatt, Münster, Hofen, Neugereut and Mühlhausen, at the district town hall and from the cooperation partners of the network. We would appreciate your donation.
